

Audrey L. Gideon

Front-end Web Developer

1098 Aspindale Park, Kambuzuma
Harare
Zimbabwe

lizzyaudreygideon@email.com
078 826 2049 | 071 634 0504

QUALIFICATION SUMMARY

Passionate Front-end web developer with a solid foundation in HTML, CSS, and JavaScript fundamentals. Experienced in coding and completed a project management course covering Agile and Waterfall methodologies, applying analytical and problem-solving skills to deliver results. I am committed to continuous learning and eager to leverage technical and project management abilities in a collaborative environment.

KEY SKILLS

✓ HTML	✓ JavaScript	✓ SASS
✓ ES6	✓ Bootstrap	✓ CSS
✓ React.js	✓ Express.js	✓ Node.js.

RELEVANT PROFESSIONAL EXPERIENCE

Scratch Coding Instructor

01/2024 - Present

Uncommon.org, Zimbabwe

- Teach coding fundamentals to over 800 primary and secondary children using the Scratch visual programming language
- Guided students through the process of building interactive games and application
- Fostered an engaging and inclusive learning experience to spark children's interest in coding

Hackathon Website Developer – Gender-Based Violence Support Platform

10/10/2024 -

16/10/2024

African Girls Can Code Bootcamp

- Collaborated in developing a website addressing gender-based violence, aligned with **UN Sustainable Development Goal 5** (Gender Equality).
- Designed and implemented features for anonymous reporting, access to resources (legal aid, hotlines, shelters), and location tracking to connect users with nearby support services.
- Focused on creating an intuitive and secure platform that supports survivors while ensuring accessibility for users with varying digital literacy levels.

Graduate Intern: Laboratory Scientist

06/2022 - 06/2023

Government Analyst Laboratory (GAL), Ministry of Health and Child Care

- Gained practical experience in forensic science through the Clinical and Toxicology Section of GAL, focusing on post-mortem analysis for sudden death investigations.
- Worked on cases with the Zimbabwe Republic Police (ZRP) and Forensic Laboratory, analyzing poisons, hazardous substances, therapeutic and illicit drugs, blood alcohol content, and heavy metals.
- Acquired proficiency in advanced analytical techniques, including **GC-MS**, **UV-VIS**, **ICP-MS**, and **QuEChERS**, to determine causes of death and monitor toxicological exposure.
- Learned evidence handling procedures, including maintaining the proper chain of custody, and prepared court-admissible reports for legal and estate cases.
- Developed skills in interpreting analytical results and presenting evidence in legal contexts to support forensic investigations.

EDUCATION

Full Stack Software Development
