PROFILE

Aspiring web developer with a solid foundation in HTML, CSS and JavaScript fundamentals. Serving as a volunteer Scratch instructor at Uncommon.org, gaining hands-on experience in coding. Completed a project management course covering Agile and Waterfall methodologies, applying analytical and problem-solving skills to deliver results. Committed to continuous learning and eager to leverage technical and project management abilities in a collaborative environment.

WORK EXPERIENCE

Scratch Coding Instructor

Uncommon.Org Jan 2024 -- Present

- Teach coding fundamentals to children using the Scratch visual programming language
- Guided students through the process of building interactive games and applications
- Introduced debugging concepts and problem-solving techniques within the Scratch environment
- Fostered an engaging and inclusive learning experience to spark children's interest in coding
